

PORR Carinthia with strong new staff Upgrades in the Technical Branch Management

Klagenfurt am Wörthersee, 30th January 2019 - Paul Lamprecht was Technical Branch Manager in the region of Carinthia and East Tyrol for many years. Since the beginning of the year, he has been Managing Director of PORR Business Unit 1 in the field of building construction. He is followed by two experts from PORR as Technical Branch Managers: Robert Wuggenig in building construction and Robert Truppe in civil engineering. With his many years of experience, Michael Kotomisky remains in his position of Commercial Branch Manager.

With 29 years of experience in the construction industry, **Michael Kotomisky** has been working as Commercial Branch Manager for PORR in the regions of Carinthia and East Tyrol since 2012. Focusing on sustainable business, he and Paul Lamprecht have tripled turnover and more than doubled the number of employees. "After many years of cooperation with Michael Kotomisky, I believe the management of the branch in very competent hands. The fact that my position has been filled from within our own ranks makes me particularly confident that PORR Carinthia will continue on its successful course," said Paul Lamprecht about his succession.

Kotomisky is equally optimistic about the change: "We will continue to master all future challenges, also with the new line-up. Sustainable business remains our top priority - we want to create jobs and values for the future."

Loyalty and reliability

The new Technical Branch Manager in building construction, **Robert Wuggenig**, has been with PORR since 2011. Loyalty, reliability and handshake quality distinguish him. He has already proven these values and principles in many different construction projects - from fence bases to new hospital buildings. "Better together" is his motto. As a team player, he approaches new tasks with motivation and is looking forward to actively help shaping PORR.

Know-how and passion

Robert Truppe, the new Technical Branch Manager in civil engineering, has been with PORR since 1990 in various positions in the Carinthia and East Tyrol area. His greatest passion is road construction. His motto also stems from this field: "Always stay down-to-earth". The intensive exchange with colleagues and customers is particularly important to him.

Strong trio for the management of PORR in Carinthia and East Tyrol
